3 Ways Noodle Social Intranet Can Help You Manage Information, Connect Your Employees & Increase Productivity

Try Noodle, The Social Intranet Software

Do your employees waste valuable time looking for information -- only to find obsolete documents?

Do you and your staff use email to share documents?

Do you still have a static file storage in an intranet that nobody uses?

If you answered "Yes" to any of these, then read on.

Here are 3 ways a Noodle social intranet can make your company more productive and profitable:

1 One Portal to Share Information & Documents

- Manage all important documents in one place
- Robust full body text search, so users find what they need
- Share and manage schedules through individual and merged calendars
- Automatically notify users when new information is available
- Turn paper forms into e-forms that can be workflowed and tracked
- Complete control of who is able to view, edit, and administer files

2 A Platform For Staff To Interact & Collaborate

- Employees can message each other, even if they're in different locations
- Share ideas, solutions, and expertise through blogs, discussion forums, and wiki- style pages
- Capture knowledge from employees and into searchable intranet content
- Enhance top-down, bottom-up, and colleague-to-colleague communication
- Foster cohesion and unity among employees, leading to staff who are actively engaged highly motivated , and more productive

3 An Easy-to-Use & Affordable Solution

- Straightforward, understandable interface
- Simple to use; employees need minimal training
- Support is only an email or phone call away. During regular business hours, we respond within 24 hours.
- Available either as cloud-hosted (software as a service) or local installation
- Subscription or licensing cost includes help with setup, installation, and minor customization -- no hidden fees!
